SUMMARY

Senior Full Stack Engineer with 6+ years of experience across JavaScript and PHP ecosystems, building scalable, user-centric web and mobile applications. I currently lead a 10-person engineering team at NdeTek, where I've grown an AI-powered education platform to serve 2,500+ students across 4 Cameroonian universities. Alongside this, I've delivered measurable performance and adoption gains at Yaakyi, Zinger Systems, and Wandaprep — owning full project lifecycles from architecture to deployment, and mentoring interns into capable engineers along the way. Core stack: Next.js, NestJS, Laravel, React Native and MySQL.

EXPERIENCE

Lead Full Stack Engineer

NdeTek

02/2024 – Present

Buea, Cameroon

- Led a 10-person engineering team in developing the NdeTek Papers platform, now serving 2,500+ university students across 4 universities in Cameroon.
- Grew the platform's content library to include 3,000+ past university exam papers, each enhanced with proposed solutions.
- Integrated an AI model to auto-generate paper solutions, increasing team efficiency by 30% and reducing content production turnaround.
- Own the full product lifecycle — architecture, frontend, backend, deployment, and team leadership across all active NdeTek projects.
- Cultivated intern skill sets through targeted development initiatives, resulting in three interns being promoted to full-time roles six months ahead of schedule.

Full Stack Engineer

Yaakyi

06/2023 – 05/2025

United Kingdom

(Remote)

- Delivered the Kelanie Designs V2 "Coming Soon" page and e-commerce platform, achieving a 60% improvement in site performance and efficiency.
- Built production frontend features in Next.js, TypeScript, and Tailwind CSS in an Agile workflow with PM, design, and backend teams (Slack, Jira).
- Championed the adoption of Strapi, a headless CMS, empowering 5 marketing specialists to directly control website content, eliminating 20+ engineering hours weekly.
- Standardized the team's version-control workflow on GitLab, improving release consistency.

Full Stack Engineer

Zinger Systems

03/2022 – 04/2024

Buea, Cameroon

- Maintained River Pools' (USA) production website and Lead Rotator app on the MERN stack, supporting a network of 17 franchise locations serving 5,000+ clients.
- Led a 6-person team, including interns, to build Academia V2, a school management SaaS now adopted by 20+ secondary schools in Cameroon, serving 10,000+ students in total by replacing manual processes for marks, attendance, fees, and results.
- Mentored interns on the team, building their full stack capabilities while shipping real client products.

Full Stack Engineer

Wandaprep

10/2020 – 12/2022

Buea, Cameroon

- Built and scaled a platform preparing DevOps and Cloud Experts for technical interviews, now used by 1,000+ users across 20 countries.
- Improved platform performance and load time by 25% through targeted frontend and backend optimizations.
- Shipped end-to-end features across the stack — Next.js/TypeScript/Tailwind frontend, NestJS/PostgreSQL backend, as part of a cross-functional team with PM and DevOps.
- Trained and mentored interns in WordPress and full stack web development, expanding the team's delivery capacity.

EDUCATION

Master of Technology (MTech), Computer Software Engineering

University of Buea

10/2024 – 06/2026

Buea, Cameroon

Bachelor of Technology (BTech), Computer Software Engineering

University of Buea

10/2020 – 06/2023

Buea, Cameroon

TOP SKILLS

- Next.js
- NestJS
- Laravel
- MySQL
